Identify
That
Tall Ship!
(even the short ones!)

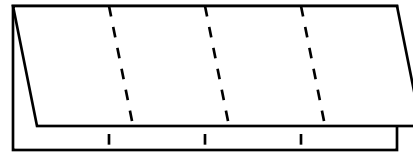

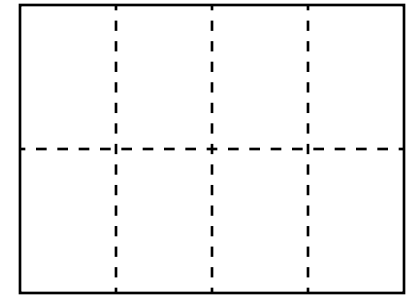

Fold in half short-wise.

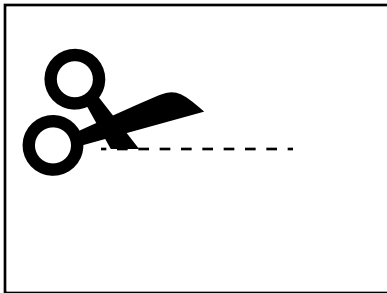

Fold the halves in half.

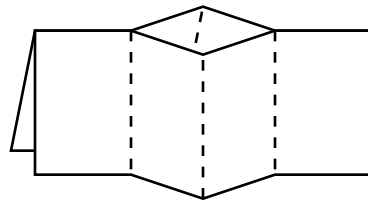

Unfold and fold in half long-wise.

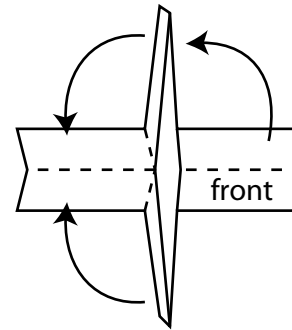

Unfold. You should have crease-lines dividing the page into 8.

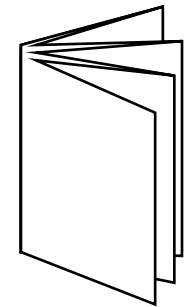

Cut along dotted-line
(between the middle sections.)

Fold long-wise and pull the
middle sections outward.

Fold the middle sections
perpendicular to the sides, then
fold the pages so that the front
is on the outside.

Now it's a book!
